CONTACT US

Alternative Headline B

Connecting Global Producers with International Markets

Fertilizers, sulfur, industrial chemicals, and raw materials — sourced and supplied through reliable international trading networks.

Alternative Headline C

Your Partner in Global Commodity Trading

Reliable products. Competitive sourcing. Efficient logistics. Professional execution.

3. HOMEPAGE — INTRODUCTION

International Trading. Global Supply.

MNA Global Trading is an international trading company specializing in fertilizers, sulfur, industrial chemicals, and selected petrochemical products.

We develop supply solutions connecting producers and international markets, combining product sourcing, commercial expertise, logistics coordination, and market knowledge.

Our objective is simple:

To make international commodity trading more reliable, efficient, and transparent.

4. HOMEPAGE — PRODUCT PORTFOLIO

Our Products

Fertilizers

Automotive Grade Urea

High-purity urea for AdBlue® / AUS production and automotive applications.

Agricultural Grade Urea

A high-analysis nitrogen fertilizer for agricultural use and international distribution.

NPK

Balanced nitrogen, phosphorus, and potassium fertilizers for modern agriculture.

MAP

Monoammonium Phosphate for agricultural applications and fertilizer blending.

DAP

Diammonium Phosphate, a major nitrogen and phosphorus fertilizer.

Sulfur

Molten Sulfur

Industrial sulfur for sulfuric acid production and chemical processing.

Lump Sulfur

Solid sulfur for industrial processing and sulfur-based applications.

Granular Sulfur

Granulated sulfur for agricultural and industrial applications.

Industrial & Petrochemical Products

MEG

Mono Ethylene Glycol for polyester, PET, antifreeze, and industrial applications.

Base Oils

Essential raw materials for lubricant manufacturing and industrial applications.

5. HOMEPAGE — WHY MNA GLOBAL TRADING

Why Work With Us?

Global Sourcing

We identify reliable supply sources and develop competitive purchasing solutions according to product, specification, quantity, origin, and destination.

International Market Access

We connect producers with distributors, industrial consumers, and trading partners across Europe, the Balkans, Mediterranean, Middle East, North Africa, and other international markets.

Logistics Expertise

From producer to final destination, we coordinate transportation, port operations, warehousing, transshipment, customs procedures, and delivery solutions.

Commercial Flexibility

Each transaction is structured according to the requirements of the product, supplier, buyer, market, and logistics chain.

Long-Term Partnerships

We focus on building sustainable commercial relationships with producers, customers, and trading partners.

6. HOMEPAGE — TRADING & SUPPLY

More Than a Product Supplier

International commodity trading requires more than sourcing a competitive price.

MNA Global Trading provides an integrated approach covering:

Sourcing → Negotiation → Contracting → Logistics → Documentation → Delivery

We work to ensure that every part of the transaction is clearly structured and efficiently coordinated.

From Origin to Destination

Whether the requirement is a single shipment, recurring supply, regional distribution program, or international trading transaction, we develop the appropriate commercial and logistics solution.

9. PRODUCT PAGE — AUTOMOTIVE GRADE UREA

Automotive Grade Urea

High-Purity Urea for Automotive Emission Control Applications

Automotive Grade Urea is a high-purity raw material used for the production of AUS/AdBlue® solutions for Selective Catalytic Reduction (SCR) systems.

MNA Global Trading supplies Automotive Grade Urea according to applicable quality requirements and customer specifications.

Applications

- AdBlue® / AUS production
- SCR emission-control systems
- Automotive applications
- Industrial urea solution production

Supply Solutions

Available depending on market and supplier:

- Big Bags
- Bags
- Bulk
- International delivery

CTA: REQUEST AUTOMOTIVE GRADE UREA

10. PRODUCT PAGE — AGRICULTURAL UREA

Agricultural Grade Urea

High-Analysis Nitrogen Fertilizer

Urea is one of the world's most widely used nitrogen fertilizers, providing a high concentration of nitrogen for agricultural applications.

We supply agricultural-grade urea for distributors, agricultural companies, fertilizer blenders, and international trading partners.

Supply Options

- Bulk
- Big Bags
- Bags
- Containerized shipments where appropriate

Supply can be arranged according to required specification, quantity, origin, packing, and destination.

CTA: REQUEST UREA

11. PRODUCT PAGE — NPK

NPK Fertilizers

Balanced Plant Nutrition

NPK fertilizers combine nitrogen, phosphorus, and potassium to provide balanced plant nutrition.

We supply selected NPK grades for agricultural distribution, fertilizer blending, and international trading.

Available Solutions

- Standard NPK grades
- Market-specific formulations
- Bulk supply
- Big Bags
- Bagged products

Product availability and specifications are subject to supplier and market requirements.

CTA: REQUEST NPK

12. PRODUCT PAGE — MAP

MAP — Monoammonium Phosphate

Efficient Nitrogen & Phosphorus Supply

MAP is a concentrated phosphate fertilizer providing both nitrogen and phosphorus.

It is widely used directly in agriculture and as a raw material for fertilizer blending and formulation.

MNA Global Trading provides MAP according to agreed product specifications, origin, packing, quantity, and delivery requirements.

CTA: REQUEST MAP

13. PRODUCT PAGE — DAP

DAP — Diammonium Phosphate

High-Analysis Phosphate Fertilizer

DAP is one of the world's most widely traded phosphate fertilizers, providing nitrogen and phosphorus in a concentrated form.

We supply DAP to agricultural distributors, fertilizer companies, industrial customers, and international trading partners.

Supply solutions can include bulk and packed cargo depending on origin and destination.

CTA: REQUEST DAP

14. PRODUCT PAGE — SULFUR

Sulfur

Industrial & Agricultural Sulfur Supply

MNA Global Trading supplies sulfur in different physical forms for industrial, chemical, and agricultural applications.

Molten Sulfur

Primarily used as a raw material for sulfuric acid production and chemical processing.

Lump Sulfur

Solid sulfur suitable for industrial processing, sulfuric acid production, and other applications.

Granular Sulfur

Granulated sulfur suitable for agricultural and industrial applications.

Supply Formats

Bulk | Big Bags | Other formats upon request

We arrange supply according to product specification, quantity, origin, loading port, destination, and delivery terms.

CTA: REQUEST SULFUR

15. PRODUCT PAGE — MEG

MEG — Mono Ethylene Glycol

Essential Industrial Chemical

Mono Ethylene Glycol is a versatile industrial chemical used in a broad range of applications.

Main Applications

- Polyester fibers
- PET resin production
- Antifreeze and coolants
- Heat-transfer fluids
- Industrial chemical applications

MNA Global Trading works with international suppliers to develop competitive MEG sourcing and delivery solutions.

CTA: REQUEST MEG

16. PRODUCT PAGE — BASE OILS

Base Oils

Raw Materials for Lubricant Production

Base oils are essential components in the production of lubricants and other industrial products.

We source and supply base oils according to required grades, specifications, origin, quantity, and delivery location.

Applications

- Automotive lubricants
- Industrial lubricants
- Hydraulic fluids
- Process oils
- Other lubricant applications

CTA: REQUEST BASE OILS

17. TRADING & SUPPLY PAGE

International Commodity Trading

From Producer to Market

MNA Global Trading operates across the international commodity supply chain, connecting producers with qualified buyers and distribution partners.

Our trading model can include:

Producer → MNA Global Trading → International Buyer

or

Producer → MNA Global Trading → Regional Distribution → Final Customer

Our Trading Process

1. Requirement

We define product, quantity, specification, destination, and delivery period.

2. Sourcing

We identify suitable producers and supply sources.

3. Commercial Negotiation

We negotiate competitive purchasing and selling terms.

4. Logistics

We develop the most appropriate transportation and delivery solution.

5. Documentation

We coordinate commercial, shipping, quality, and regulatory documentation.

6. Delivery

We monitor execution through loading, transportation, discharge, and final delivery.

18. LOGISTICS PAGE

Integrated Logistics Solutions

Efficient Movement of Bulk & Packed Commodities

Our logistics approach covers the complete transportation chain.

Maritime

Bulk vessels, coasters, containerized shipments, and other maritime solutions depending on cargo and route.

Road

Truck transportation for regional distribution and final delivery.

Inland Waterway

Barge transportation where commercially and operationally appropriate.

Ports & Transshipment

Coordination of loading, discharge, storage, transshipment, and cargo handling.

Warehousing

Regional storage and distribution solutions for selected products and markets.

Customs & Documentation

Coordination with customs and logistics partners to support efficient import and export procedures.

19. QUALITY & COMPLIANCE PAGE

Quality & Compliance

Clear Requirements. Reliable Documentation.

Quality, product conformity, documentation, and regulatory compliance are essential elements of every international commodity transaction.

Depending on the product and transaction, documentation may include:

- Certificate of Analysis
- Safety Data Sheet
- Certificate of Origin
- Product Specification
- Commercial Invoice
- Packing List
- Bill of Lading
- Weight Certificate
- Inspection Certificate
- Other applicable documentation

We work closely with suppliers, customers, inspection companies, logistics providers, and customs representatives to ensure that requirements are clearly established before execution.

20. ABOUT US PAGE

Building Reliable International Supply Chains

MNA Global Trading is an international trading and distribution company focused on fertilizers, sulfur, industrial chemicals, and selected petrochemical products.

Our business is built around three principles:

Reliable Sourcing

Developing relationships with producers and suppliers capable of supporting consistent international supply.

Efficient Execution

Combining commercial expertise with logistics coordination to move products efficiently from origin to destination.

Long-Term Relationships

Building partnerships based on reliability, transparency, professionalism, and mutual commercial value.
